Strategy to Help Prevent Learner Radicalisation

TTA takes its responsibilities for safeguarding very seriously. In accordance with the Counter Terrorism and Security Act we have a responsibility to prevent people from being drawn into terrorism and participates fully in such work.

The TTA will ensure staff are aware of the government's "Prevent Strategy" in association with this policy.

Prevent is a strand of the Government counter terrorism strategy – CONTEST. The UK faces and range of terrorist threats. All the terrorist groups who pose a threat seek to radicalise and recruit people to their cause. The Prevent strategy seeks to:

- Respond to the ideological challenge of terrorism and aspects of extremism and the threat faced from those who promote these views.
- Provide practical help to stop people from being drawn into terrorism and ensure they are given appropriate advice and support.
- Work with a wide range of sectors where there are risks of radicalisation which needs to be addressed, including education, criminal justice, faith, charities, the internet, social media and health

TTA is an independent training provider for young people from ethnically diverse and socially and economically disadvantaged areas. The age and profile of students make it crucial to be actively involved in the Prevent strategy. TTA has a part to play in fostering shared values and promoting cohesion. Extremist ideology runs counter to TTA and British values which make our community successful such as respect and tolerance for others, the rights of all to live and study free from persecution of any kind, freedom of speech, democracy, the rule of law and equality of opportunity and treatment. Extremism promotes fear and division and actively seeks to cause destructive relationships between different communities. This strategy has five key objectives:

1. To promote and reinforce internal and British values; to create space for free and open debate; listen and support the learner voice and enable students to develop their self-knowledge, self-esteem and self-confidence.
2. To promote social cohesion by supporting inter-faith and inter-cultural dialogue and understanding, and to engage all students in playing a full and active role in wider engagement in society.
3. To ensure student safety and that the learning environment is free from bullying, harassment and discrimination.
4. To provide support for students who may be at risk and appropriate sources of advice and guidance.
5. To ensure that students and staff are aware of their roles and responsibilities in preventing terrorism and radicalisation.

In order to achieve these objectives, the strategy will concentrate on four areas:

Leadership and Values:

To provide an ethos which upholds core values of shared responsibility and wellbeing for all students, staff and visitors and promotes respect, equality and diversity and understanding. This will be achieved through:

- promoting British Values throughout our organisation
- building staff and student understanding of the issues and confidence to deal with them
- actively working with local authorities, police and other agencies

Teaching and Learning:

To provide a curriculum which promotes knowledge, skills and understanding to build the resilience of students, by undermining extremist ideology and enabling students to acquire a broad knowledge of and respect for public institutions. This will be achieved through:

- embedding equality, diversity and inclusion and wellbeing
- promoting wider skills development such as social and emotional aspects of learning
- use of external programmes or groups to support learning while ensuring that the input supports our goals and values
- encouraging active citizenship and facilitating learners to accept responsibility for their behaviour, show initiative and understand how they can contribute positively to society

Learner Support:

To ensure that staff are confident to take preventative and responsive steps working with partner professionals, families and communities. This will be achieved through:

- implementing equality and diversity, safeguarding, anti-bullying strategies and challenging any discriminatory behaviour
- helping students and staff know how to access support internally and or through community partners
- supporting at risk students through safeguarding and crime prevention processes - focusing on narrowing the achievement gap for all students

Managing Risks and Responding to Events:

TTA must be able to demonstrate an awareness and understanding of the risk radicalisation, appreciating that this can change rapidly.

TTA has used existing mechanisms for understanding the risk of the risk of radicalisation ensuring that the duty is communicated and that staff understand the risk and have the capabilities to deal with any concerns. A specific risk has been added into the register.

To ensure that we monitor risks and are ready to deal appropriately with issues which arise.

We:

- understand the nature of the threat from violent extremism and how this may impact direct or indirectly on our organisation
- understand and manage potential risks within their organisation from external influences
- respond appropriately to events in local, national or international news that may impact on learners and communities
- ensure measures are in place to minimise the potential for acts of violent extremist within our organisation
- ensure plans are in place to respond appropriately to a threat or incident within our organisation
- develop effective e-safety and responsible user policies

Managing Risks and Responding to Events:

TTA views Strategy to Prevent Terrorism and Radicalisation as a key part of its safeguarding responsibilities as well as fitting with the wider educational role, promoting community cohesion and teaching learners to respect others. As such, should there be a concern, this should be reported in accordance with the Safe Learner Policy.
